

Motion for 2/21/13

Background: The subcommittee approved DP 52, which funded the fixed costs and inflation/deflation rates approved by the General Government subcommittee. Changes will be given to staff.

We are asking the members please move:

“that the Appropriations Subcommittee on Health and Human Services direct staff to adjust DP 52 with the adjusted numbers received from the Appropriations Subcommittee General Government and put language in HB2 allowing the department to allocate the adjustments in funding among divisions when developing the 2015 biennium operating plans.”
